OCCUPATIONAL HEALTH

Workplace medical services

TEAM 24/7 manages private trauma units and community practices across KwaZulu-Natal. Our occupational health division puts that same clinical team behind your workforce.

What we provide

Pre-employment medicals

Baseline assessments for new appointments, so every employment relationship starts with a documented picture of health.

Exit medicals

The closing assessment when an employee leaves, measured against the baseline already on file.

Injury-on-duty assessments

Clinical assessment and documentation after a workplace injury, by a team that treats trauma every day.

Fitness-for-work evaluations

An assessment of whether an employee is fit for the specific demands of their role, or fit to return to it.

Why employers work with us

01

Straightforward billing

Preferred providers for most major medical aid schemes, charging medical aid rates. Co-payments depend on the scheme and the plan.

02

A named contact

Every organisation is assigned a key contact person, so you are not starting again with a switchboard each time.

03

Closed governance loop

Complaints managed end to end, with monthly clinical reviews and feedback back to everyone involved.

Where we are

TEAM 24/7 Head Office

95 Woodhurst Drive, Woodhurst
Chatsworth, 4092
031 942 6717

Medical on Main

906 Main Road, Moseley Park
Queensburgh
079 213 2642

Trauma units behind us, open 24 hours: Life Chatsmed Garden Hospital · JMH City Hospital · JMH Isipingo Hospital

How to start

1. Tell us the basics
Your headcount, your site location, and what you are looking for.

2. We come back to you
With what it would involve for your organisation.

3. We get going
We agree a schedule and assign your key contact person.
